Considerations included sales, possession, and display within the city.

The vision statement for the plan is this: In 2040, the City of Wichita will be a community where parking contributes to the civic, social, and economic vitality of the community. Parking will be a high-quality, integral part of a dynamic, connected, and seamless multimodal transportation system. The City's parking system will strive to be convenient and efficient for a diverse and comprehensive range of users.
